The candidate João Neiva presents extensive experience in the domains of the call. He has published numerous articles as first and last author, has experience in supervising master thesis, and presents a motivation letter and career plan fully aligned with CCMAR's values and aims, thus, in my opinion, he is well qualified to fill this position.

Dr. Neiva is the only candidate for this position. His track record and his career path is excellent, and his motivation letter convincingly addresses the questions. He will definitely be highly able to fill the requests of the position. His scientific output is very high, but his h-value profits from many co-authorships with high ranking publications where he is not first or last author. Thus I did not weigh CA with 100.
